STORM DAMAGE IS VERY GREAT

New Stories of Havoc Played by
Miniature Cyclone Reach
This City.

LOSS CAN NOT BE ESTIMATED

Whole Truth of Terrible Wreckage
Will Never be Known—Pranks
of Wind.

It is very likely that the damage done by the storm of yesterday morning over the northern part of Rush county can never be estimated in dollars to any degree of accuracy. The later reports and belated stories from over the storm-swept district show that the damage is almost inestimable. Thousands of dollars worth of timber alone was destroyed and hundreds of acres of forest, woodland and groves of shade trees were devastated by the miniature cyclone. The loss to farmers from the destructions of crops, orchards and property will equal much more.

It is still impossible to communicate by telephone to any points north of Rushville, due to the fact that not enough time has elapsed to repair the telephone lines which are down all over the storm district. It is necessary to depend upon the stories of residents of the district and of people who have visited that part of the county since the storm.

Rural mail carriers who travel over that part of the county declare that it is beyond their power of description to even tell to a minor degree what took place. They say that whole forests of large and beautiful specimens of trees were uprooted and torn and bent. At other points roads were absolutely impassable on account of fallen trees across the thoroughfares.

Local lumber men say that the local timber market will be flooded now and that the price will probably be lowered on account of the sudden influx of valuable timber on the market. Most all of the thousands of trees which were blown down were no doubt ones that the owners would not part with and in the majority of cases they are excellent specimens. They will sell them since they are on the ground as they would rot out in time and be worthless.

The great loss to the fruit crop is expected to reach up to several thousand dollars. Hundreds and perhaps thousands of fruit trees on which the fruit was only partially developed were uprooted and blown down during the severe storm. In every case the fruit will be worthless. The loss of the trees must also be taken into consideration. In some points in the northern part of the county, fine orchards that have taken years to bring to such a degree of perfection, were almost entirely demolished. In many cases as many as one hundred trees in an orchard were destroyed and are now worthless. Of course, where trees bearing matured fruit were blown down, there was no loss of fruit as it all may be picked, but the owners must suffer the loss of the trees.

The damage to the growing crops on the farm is very great, according to farmers from the storm district, who have ventured into the city since the hurricane. The oats and wheat, both of which is ready to cut, was laid flat in the field by the terrific wind. The young corn was also bent over and in many cases broken off. The corn is especially tender now and lots of it snapped off and will be a complete loss. The ground was wet on account of the recent rains which made it all the easier for the wind to cause the young corn to bend over. Farmers have expressed the opinion

that a few days of the hot sun will cause most of the young corn to assume its natural position again. But at that the loss to the three crops will extend to the thousands of dollars. Much of the wheat and oats is wet and will probably never rise off the ground so that it may be cut without a heavy loss. It will also get musty while lying on the ground, so farmers say.

But the property loss is conceded to be even greater than that to the crops. It has been estimated, of course, only approximately, that the property loss as the result of the storm is in the neighborhood of fifty thousand dollars. In view of the fact that so much farm property was demolished and partially destroyed, it is thought that the loss will reach that amount at any rate.

If all reports be true the roofs were torn off of approximately three hundred buildings in the county. From all over the northern district comes the story of roofs of barns, houses tenant houses, out buildings and other structures about the farm being wrenched off and carried into adjoining fields. Thousands of rods of good fence were torn from the ground and strewn around through the fields and roads. The damage to windmills was also very great. The mills on about every farm in the storm district were either blown down or so badly twisted that they will never be worth anything.

The loss to the country telephone companies is very great. The wind invariably took its spite out on the telephone lines. Poles were blown down and miles of wire was hurled into the road in a tangled mass. Mays, Falmouth, Gings, Carthage, Manilla, Occident, Raleigh, Homer, Sexton and other small towns are practically acclimated from the world as it were. They can not communicate with anyone and it will probably be several days before the old-time service is re-established. Arlington can communicate with Rushville, but with no other point over the county.

After the excitement incident to the storm, people who passed through it have reflected and many opinions have been expressed that it was the worst storm of that nature that ever visited Rush county. It resembled a cyclone in some places on account of the great velocity of the wind. At some points in the northern part of the county the wind curled and took whatever came in its path into the air. It has been said that nothing so terrible ever happened in Rush county.

Since the storm has passed it is wondered how everyone in the storm-swept district escaped with their lives. The wind in all its intensity threatened to tear down houses as well as barns, but there are no reports of any large residence being blown over. The nearest escape had was that on the Mae Opper farm in Center township, where the roof of the barn was hurled against the house and tore a large hole in it. Reports come from all over the county that people thought a cyclone was in progress. Many were the homes that the members of the family were awakened and all dressed in order to prepare for an emergency. There were many in this city who came down stairs to avoid being injured in case the house was blown down. Others ran to their cellars to seek safety from the storm.

It seems that the storm assumed the greatest ferocity in and around Occident. It was reported yesterday that glass was blown in at Dr. Bowen's home. But later reports are to the effect that the house rocked on its foundation and the plastering and pictures were shaken from the walls. The furniture and carpets were badly damaged. At other homes in that town, similar damage was done.

A humorous story is told of a German resident of Occident. It is said that he arose early yesterday morning while the storm was at its worst and hurriedly dressed himself and his child. He ran for the cellar at once and the storm had abated before he ever found the door leading to the underground region. It is told Continued on page eight.

WARNS AGAINST ROTTEN FRUIT

H. E. Barnard, State Food and Drug
Commissioner, Sends Out
Circular Letter.

SOME ARE RECEIVED HERE

Calls Attention of Farmers and Gardeners to Law on That
Particular Subject.

Circular letters addressed to farmers, gardeners and hucksters, calling attention to the provision in the pure food law prohibiting the sale of decomposed fruit or vegetables, have been sent out by H. E. Barnard, State food and drug commissioner. The letter follows:

The attention of farmers, gardeners, hucksters and other persons producing or dealing in fruits and vegetables is called to section 2 of the pure food law, which prohibits the sale of food which consists in any proportion of decomposed, putrid or rotten vegetable substances, whether manufactured or not. This section plainly holds the farmer or merchant who sells unsound fruit, such as apples, peaches and small fruits, tomatoes, melons and vegetables of every description, liable for violation of the pure food law. It applies with equal force to the farmer who sells his tomatoes, corn or fruit to the canning factory as to the commission man or retail merchant.

County, city and town health officers, State food inspectors and all other officers whose duty it is to enforce the pure food and sanitary food laws, will be governed by this notice in regulating the sale of fruits and vegetables.

JAMES WOOSTER PAINFULLY HURT

Meets With Accident in Aurora, Ill.,
When Gasoline Explodes—is
With Circus.

BLISTERS FACE AND ARMS

Word was received here today that James Wooster, son of Mr. and Mrs. Frank Wooster, who is with the Wallace-Hagenbeck circus was injured last Tuesday in a gasoline explosion in Aurora, Ill. His face and arms were badly burned and he suffered intense pain. It was stated that he was recovering nicely and the burns probably will not leave any scars. Although in a serious condition he continued with the show and refused to come home. The cause of the explosion is not known as it was not stated in the letter received by Mrs. Wooster. The bandages were removed only a few days ago and he was allowed to write home. This is Wooster's second season with the circus, having joined them early this spring in Peru, when they first started on the road.

MISS HOLDEN RESIGNS.

Miss Teo Holden, who was elected to teach in the city schools for another year, has resigned to accept a position as teacher in the city schools at Stillwater, Oklahoma. Miss Katherine Petry has been appointed to fill the vacancy and will teach the room in the Havens building which was taught by Mrs. Nina Ford Black last year.

OTT INSPIRES YOUNG PEOPLE

Lecturer Who Appears on Chautauqua Program This Year, is Man
With a Purpose.

HE WOULD UPLIFT MANKIND

He is a Man Who Knows Books and
People by His Own
Experiences.

When character is forming it is a matter of great importance that high ideals be held up before young eyes. Children are born imitators, as every mother knows. What they see they become; what they hear they say. They are as clay in the hands of the potter. So if we would build character aright it behooves us to remember this and take care that the young folks in our community are brought into touch with the things that inspire. If we can form liking for good books, beautiful pictures and exquisite music we have done much in the formation of his character. And experience has taught us that the only practical way in which we can develop this appreciative faculty is by so arranging the life of the child that he becomes used to these good things. In other words, to so surround him with beauty and worth-while things that his taste for the other phases of art and life will be a negative quantity.

One of the roads we take towards this delightful paradise is that which leads to the lyceum and Chautauqua platform. Almost every town has its lecture and entertainment course in the winter and its Chautauqua Assembly in the summer. Of course many of the lectures and entertainments appeal largely to the children of a larger growth, but no lyceum or Chautauqua manager but has the young folks under consideration. He plans concerts and rollicking, jolly evenings just especially for them. But he does even more than that. He brings to these towns every year a number of inspirational men and women, whom it is an uplift to know. They are not only teaching young people what things are worth while theoretically but they are showing them practical illustrations in real life.

Among these inspirations is Edward Amherst Ott who comes to this city as an attraction on the chautauqua program. Here is a man with a purpose and an ideal. His purpose is to help and uplift mankind. His ideal is to be the incarnation of helpfulness and uplift. He is a man who knows books and people by experience, and study, and the higher phases of life by intuition and insight. He gives what he himself calls "purposeful lectures" and he backs up what he has to say by a kindly magnetic personality which wins his audience every time. He is the sort of a man who picks you up and sends you on again when you have stubbed your toe, just by his very faith in you. Edward Amherst Ott knows to a certainty that you, whoever you are, can not fail. After you hear him talk for a while, you begin to believe it yourself. You leave his lecture ready to go out into the world and try it again.

And if you are a young child just at the threshold of endeavor, the night of the Ott lecture becomes a turningpoint in your life. The doors of daring are thrown open before you. Through them you see vistas of achievement which spur you on to supreme effort. What you want to do and what you can do come together in that perspective. Ambition

stirs and with it is the faith of possible accomplishment.

Mr. Ott has been lecturing since he was a youth himself and he has received an enviable number of appreciative comments. Many of them are from school superintendents and teachers, and in them they emphasize particularly the influence of the Ott lectures and the Ott personality upon young people. These teachers know what they are talking about; they know that the Ott impression is one that does not rub off in time.

HARRY BUSSELL DIES SUDDENLY

Succumbs at Sanatorium From Par-
alysis of Heart—Underwent
Operation Two Weeks Ago.

FUNERAL FRIDAY AFTERNOON

Harry Bussell, 22 years old, died last evening at seven o'clock at the Sexton sanatorium. Death was due to acute paralysis of the heart. Mr. Bussell was operated on two weeks ago for appendicitis and was recovering nicely. It was expected that he would be able to be taken home Saturday and yesterday he was allowed to sit up, so improved was his condition. Last evening he became suddenly ill and died in a very short time. He was the son of Mr. and Mrs. Albert Bussell of this city, and had lived in Union township for a number of years. Besides his parents, a widow, two children and two sisters survive.

The funeral services will be held Friday afternoon at the Ben Davis Creek church. Burial will take place in the church cemetery.

DEATH COMES TO HAROLD SNIFF

Oldest Son of the Rev. and Mrs. W.
W. Sniff Expires at Home in
Paris, Ill.

WELL KNOWN IN THIS CITY

Mrs. J. D. Case received a telegram this morning from the Rev. W. W. Sniff of Paris, Ill., stating that his son, Harold, had died last night. News of the young man's death came as a great surprise to his many friends in this city. The Rev. W. W. Sniff was formerly pastor of the Main Street Christian church and during their residence here Harold gained many friends. He was the oldest son of the Rev. and Mrs. Sniff. He was a graduate of Angola and up until a few months ago was employed as superintendent of the school in Melrose, Ohio, being forced to resign and go to his home in Paris, suffering with diabetes. Mr. Sniff improved after being home and hopes were expressed for his complete recovery, but about a week ago an ulcer formed on the back of his neck and death was due to poisoning. The funeral services will be held Friday afternoon and it is expected several from this city will attend.

AGED MAN DIES.

Frank Keller, 91 years old, is dead at his home in Indianapolis. He was the father of Julius Keller, who installed the sewer system in Rushville. Mr. Keller emigrated from Germany to the United States when he was 72 years old.

WEATHER.

Unsettled. Local showers tonight or Thursday. Warmer Thursday.

BOARD CLOSES WORK TUESDAY

Number of Complaints on Property
Appraisement is Much Greater
This Year.

REAL ESTATE ASSESSMENT

Review Board's Session is Ten Days
Shorter This Year Due to
Population Decrease.

The county board of review which has been sitting in the auditor's office for the last twenty-five days will close its work next Tuesday evening. The only undesirable feature about it is that the board will be compelled to work on the glorious Fourth in order to be in session the allotted thirty days.

It is the opinion of County Auditor Jesse Stone, who has been on the board in previous years, that the number of kicks on the appraisement of property taken by the assessors this year is more than the average. He says this is due to the fact that this year was the time for the appraisement of real estate to be taken. This necessarily caused more complaints as there was more property involved.

The board had readjusted the appraisements in a few cases. In some instances they have been made higher and in some instances lower. The board wants it understood that all people having objections to the appraisement of their property should file their complaints before the board before the allotted time is up. After that time it will be useless to complain as due notice has been given that the board is in session.

The board was in session only thirty days this year due to the fact that the last census showed that the population of Rush county was below twenty thousand. Heretofore, every four years, when real estate has been appraised, as was the case this year, the board has been in session forty days. But now only thirty days is allotted and only twenty days will be allotted for the board's session in years when real estate is not appreciated. This rule will hold good for ten years or until the next census is taken, no matter how great the increase in the population of the county may be.

RED MEN GATHERED HERE

Large Class of Candidates Taken in
Last Night.

Many visiting Red Men were present last night to attend the initiation of a large class of candidates in this city. The degree team of Otankah tribe of Connorsville conferred the Adoption, Warriors' and Chiefs' degrees and their work proved the treat of the evening. Several State officers were present, including O. C. Norris, great sachem of this city and ex-Great Sachem Robertson of Indianapolis. F. Wilson Kaler of Andersonville delivered a short speech and refreshments were served after the work.

BERT CONDE APPOINTED.

Bert Conde has received notice of his appointment as substitute city mail carrier and will begin his duties Monday. Mr. Conde won out in the examination over a large field of candidates and his grade is said to be very high. The examination was held June 6 and was for the purpose of filling a vacancy in the local office as they have been without a substitute carrier for some time.

AN OLD FASHIONED IDEA

Regarding the Use of Sulphur.

Occasionally we meet with people who have the impression that to take Sulphur in the winter time makes one more liable to "catch cold". This may be true regarding "Sulphur Molasses," though it is denied by doctors, but it is certainly not true of Sulfol, as this form of sulphur can be taken at any time, winter or summer, without the slightest danger of catching cold. Keep the feet warm and dry and do not go out in the cold, improperly clad, while overheated from any cause, and you need not fear catching cold because of taking Sulfol. Medicines put up in large bottles are always administered by the teaspoon or tablespoon dose, of Sulfol is prescribed in drops. A bottle measured by the teaspoon would have to hold a half pint or more to contain as many doses as a bottle of Sulfol which holds forty doses.

Get Sulfol of your nearest druggist or write to Sulfol Co., 72 Trinity Place, New York, for free book on Rheumatism, Blood and Skin Diseases and the successful use of Sulfol in their treatment.

To keep your skin healthy and clear use Sulfol Soap. 25 cents a cake at all Druggists.

TWO LYNCHINGS STIR GEORGIANS

Legislature to Investigate Official Dereliction.

GOVERNOR BROWN CRITICISED

Failure to Provide Troops to Protect Suspected Negroes is Laid by the Governor at Doors of Local Judge and Sheriff—These Officers Refuse to Accept the Responsibility, Each Blaming the Other.

Atlanta, Ga., June 28.—Two negroes, Tom Allen and Joe Watts, were lynched in Walton county because Governor J. M. Brown, Judge Charles H. Brand and Sheriff Stark refused to use the troops to protect them. Governor Brown disclaims responsibility and puts the matter up to Judge Brand and Sheriff Stark. The sheriff says Judge Brand is responsible. At any event, because of the refusal of the three officials to act, the mob claimed two lives and a legislative probe seems certain to follow.

Tom Allen was the first victim of the mob. The negro was accused of outraging a white woman near Monroe, Walton county, about six weeks ago and was brought to Atlanta for safe keeping. Three weeks ago the negro was taken from Atlanta to Monroe, guarded by troops, to be tried. Judge Brand resented the presence of troops and postponed the trial, and the negro was returned to Atlanta. Two days ago Judge Brand gave orders for the man to be taken to Monroe for trial. It was known that the citizens had organized to lynch the negro, and Governor Brown asked Brand if he wanted troops at the trial. The judge returned an evasive answer and referred the governor to Sheriff Stark. The latter said that Judge Brand would have to ask for troops. No one asked and the negro was sent to Walton county in charge of two officers. As the train neared Social Circle it was stopped by a mob, the negro taken off, tied to a telegraph pole and shot to pieces, the passengers on the train looking on.

Mob Boldly Enters Town.

The mob, several hundred strong and unmasked, then marched to Monroe, about six miles away, where John Watts, a negro, held on suspicion of being Tom Allen's accomplice, was confined in jail. The mob boldly entered Monroe and proceeded to the jail, stormed it, took out the negro, hanged him to a tree and shot him to pieces.

Both of the negroes denied that they were guilty to the very last, and there seems to have been no strong evidence against them. The tragedy involving as it does Governor Brown, Judge Brand and Sheriff Stark, has created a sensation and the members of the legislature, which convened today, say they will institute an investigation and probable impeachment proceedings. It is charged that Judge Brand, resenting the fact that Governor Brown sent troops with Tom Allen when he was taken to Monroe some time ago, postponed the trial because he (Brand) said he did not want trouble about his court. On that occasion Judge Brand addressed the citizens of Monroe and intimated that it was a reflection on them to send troops to protect the negro.

Two months ago a negro was lynched at Lawrenceville, Judge Brand's home town, for an alleged outrage on a white woman. On that occasion Judge Brand also refused to ask for troops, although urged to do so, saying there was no danger. Two hours later the negro was lynched.

There were bets of 100 to 1 in Atlanta when it was learned that Tom Allen was being taken to Monroe without troops that he would be lynched before noon. The men who gave the odds won easily.

Two Deaths Over Stolen Cherries. Cleveland, O., June 28.—John Decker, a Lyndale farmer, was perhaps fatally wounded and a negro believed to have been John Jordan of Columbus, an ex-convict, was killed in a running gun fight from Decker's fruit farm, where the negro had been caught in a cherry tree.

A woman whose identity has not been disclosed lost a necklace of pearls valued at \$75,000 at King George's gala performance at Covent Garden.

INDIANA MEN MAY GO TO WAR

Rumor in Washington to Effect That There is Friction Between Marshall and Kern.

OTHER CAPITOL CITY NEWS

Democratic Congressmen Continue to Introduce Pension Bills—Send Them to Constituents.

[Special to the Daily Republican.]

Washington, D. C., June 28.—

In view of the agitation among the railway mail clerks and other postal employees of the country including Indiana, the reforms which Postmaster General Hitchcock is trying to work out, are important. Mr. Hitchcock has succeeded during his administration in placing the Department on a paying basis. Now he has taken up the subject of the transportation of mails. In summarizing results of his investigation, the Postmaster General has said: "Many of the railways of the country are being overpaid for transporting the mails. I believe that a saving of approximately \$9,000,000 a year to the Government can be made without injustice to the carriers, by re-adjusting the pay on a basis of a six per cent. profit to all railways carrying the mails."

A Washington report is to the effect that there is friction between Governor Marshall and Senator Kern in reference to Presidential matters for 1912. While the matter is being carefully handled, yet more is an evident still hunt in progress to determine whether it would be advisable for Senator Kern to enter the lists of candidates, and on the other hand it has become quite apparent that Governor Marshall has been attempting to further his own ambitions. The operations of Governor Wilson throughout the country seem to be most telling in their wide spread effect, and it is not unlikely that the two distinguished Indiana gentlemen mentioned above, may decide to fall in line before any real contest is precipitated.

Representative Cox has introduced a bill cutting off pay members of Board visiting "The Military Academy." The bill provides that, "no compensation shall be made to the members of said board beyond the payment of their expenses for board and lodging while at the academy, and their actual mileage for traveling by the shortest mail route from their respective homes to the academy and thence to their homes."

Representative Barnhart of Indiana has introduced a bill providing that before newspapers can be accepted as second class mail matter by the Post Office authorities that each publication must contain the names of owners, publishers, and managing editors. These, according to the dictates of Mr. Barnhart's bill, must be registered at the Post Office Department. A penalty of not less than \$100 and not more than \$1,000 is provided for each violation. Mr. Barnhart thinks the wicked trust kings who pull the wool over the eyes of the simple minded, credulous public by means of subsidized newspapers would go slower if their names should be published as owners and publishers of the newspapers they control.

The indictment of William J. Burns and James Hossick, the New York and Los Angeles detectives, on the charge of kidnapping John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, serves to stimulate those Congressmen who have bills before the House to regulate the manner in which extradition proceedings shall be conducted in the several states.

The Democratic Congressmen continue to introduce pension bills which they send home to their constituents. On Monday of each week the majority of the House prevents the consideration of such measures. It is necessary to force an adjournment as was done this week. Still some of the individual members may mean all right, as not all of the gentlemen are in harmony with the House leaders in killing pension legislation. Mr. Cullop has a new bill granting pension to contain classes of enlisted men who served in the war with Mexico. If the Democratic House does not

NONE GENUINE WITHOUT THIS SIGNATURE

have to reckon with the old soldiers of the country for the manner in which they are juggling with the question of pension legislation, it will be because of the forgiving spirit which fills the breasts of the old veterans. The House Democrats have avoided holding sessions on Monday, on which day under the rules, motions may be made to discharge the difference Committees. Through a slip of the proceedings, a sufficient number of Democrats were not on hand Saturday last to adjourn over until Tuesday, and a Monday session was forced by the Republican members. Therefore, at twelve o'clock on Monday the House met and within five minutes after the order of business had been reached, the following proceedings occurred:

Mr. Anderson of Ohio, arose and said: "Mr. Speaker, I call up the motion to discharge the Committee on Invalid Pensions from the consideration of the bill H. R. 767, the pension bill on the Calendar for Motions to Discharge Committees."

Mr. Macon: "Mr. Speaker, I make the point of order that there is not a quorum present."

Mr. Kendall: "Mr. Speaker, a parliamentary inquiry."

The Speaker: "The gentleman from Arkansas makes the point of order there is no quorum present. The chair will count. (After counting.) One hundred and sixty-nine members are present, not a quorum."

Mr. Underwood: "Mr. Speaker, I move that the House do now adjourn, as a quorum is not present."

The question was taken, and the Chair announced that the ayes seemed to have it.

Mr. Mann: "Mr. Speaker, I ask for a division."

The House divided; and there were ayes 130, noes 78.

Mr. Mann: "Mr. Speaker, I ask for the yeas and nays. It has been demonstrated there is a quorum present."

The yeas and nays were ordered. The question was taken; and there were yeas 155, nays 114, answered "present" 11, not voting 107.

The above extracts from the Congressional Record, shows beyond question the motive for the adjournment.

In justice to Mr. Anderson it may be explained that he is a Democratic Representative from Ohio, and he is one of the few of the Members of his party who has stood out insistently in demanding that the veterans of the Civil War be given their rights. Finally when he had an opportunity to secure action, the Democratic organization arbitrarily adjourned the session for the day.

About two weeks ago the Western newspaper correspondents discovered that there was a big split in the ranks of the progressive Republicans. The latest development among the scribes is that every breach has been healed and that Senator La Follette

Makes It Easy to Get up

W. K. Kellogg

NONE GENUINE WITHOUT THIS SIGNATURE

will be the nominee for the Presidency and carry this campaign into every state in the Union. There is a good deal of guess work in all this, but the inference to be drawn is that the Wisconsin Senator is engaged in sounding the country, and upon the result, it may be safely predicted, will depend his future course. Everything seems to indicate that the Taft Administration is growing stronger with the public every day, and while there is more or less talk of opposition, the best informed political leaders are inclined to think that this will all disappear months before the real campaign of 1912 is under way.

The Democratic wool bill which passed the House has furnished the long desired opportunity for effecting an alliance between the Democrats and the progressive Republicans in the Senate. Washington has been thoroughly startled by the new turn in affairs, and it is being predicted that the present session of Congress will dip deeply into the tariff, and general revision is not among the unexpected things. The opponents of the Canadian reciprocity measure have seized upon the wool bill as a means of amending reciprocity in such a way as to defeat the entire Administration program, and thereby invite a veto to

the Canadian agreement from President Taft.

The Senate Committee on Privileges and Elections has reported one of the most drastic bills covering the subject of campaign publicity, that has ever appeared in Congress. The Senate bill differs from that of the House, inasmuch as it includes full publicity for all expenses in the primaries as well as in elections.

Whooping cough is not dangerous when the cough is kept loose and expectation easy by giving Chamberlain's Cough Remedy. It has been used in many epidemics of this disease with perfect success. For sale by all dealers.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by all dealers.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

25,000 Miles in a Brush Runabout

Engine stopped and started 118,000 times

Extraordinary Two-year Record of California Mail Carrier who covered this distance over Rural Free Delivery Route at a total cost of 1 1/5 cents a mile—half the former cost of traveling it by horse and buggy. He increased his income materially by decreasing his expense. Almost any business man can do the same thing.

This is convincing evidence of the stability of the Brush. The engine was stopped and started 118,000 times in the two years. It ran a total of 4,000 hours—an average of 8 hours every working day for two years. Never missed a day and is still in perfect running order. How many big cars can equal this showing?

Everyman's Car *The Brush Runabout* \$450

WE cite this experience of Fred Ingersoll of Pasadena, Cal., because it presents conclusive evidence of the three especial virtues of the Brush, which we wish to emphasize to everyone—SIMPLICITY, DEPENDABILITY and ECONOMY.

No complicated mechanism could stand this steady grind without frequent necessity of repairs, entailing both loss of time and expenditure of money. Either would have been a fatal objection to the use of the Brush by a Rural Free Delivery mail carrier.

No car could be simpler than the Brush—no car that is more free from mechanical difficulty. It is different from every other car made in America—an original idea in motor car construction.

Two years with no trouble—what better proof of dependability? You could forgive the grocer

who came to you and said he was unable to serve you yesterday because his car broke down. If the milkman failed to appear—you'd buy milk somewhere or borrow it from a neighbor. Any tradesman could explain a day's failure to serve you. But could the mail man explain? You don't accept any failure on the part of Uncle Sam.

Eight hours a day for two years—that's a real record and we doubt if any car but the Brush ever equaled it. It's too much to expect of a complicated piece of machinery, without constant attention and costliest care. You wouldn't expect dependability like that of a \$5,000 car.

And only 1 1/5 cents a mile. No car user but a Brush owner would expect such a low cost. This record includes tires, gasoline, oil, up-keep, storage and every other expense. It is not merely running expense. Figure what it costs to feed a

horse and compare the two. Many a horse owner has said he couldn't afford a car.

Let us tell you this story: A Detroit salesman asked his employer for a car and was refused. He then proposed to buy the car if he could have the usual allowance for livery charges. This was agreed to and he bought a Brush. In a little over a year the money he saved out of his livery allowance paid for the car. Incidentally he doubled his sales. Now his employer furnishes cars for all the salesmen.

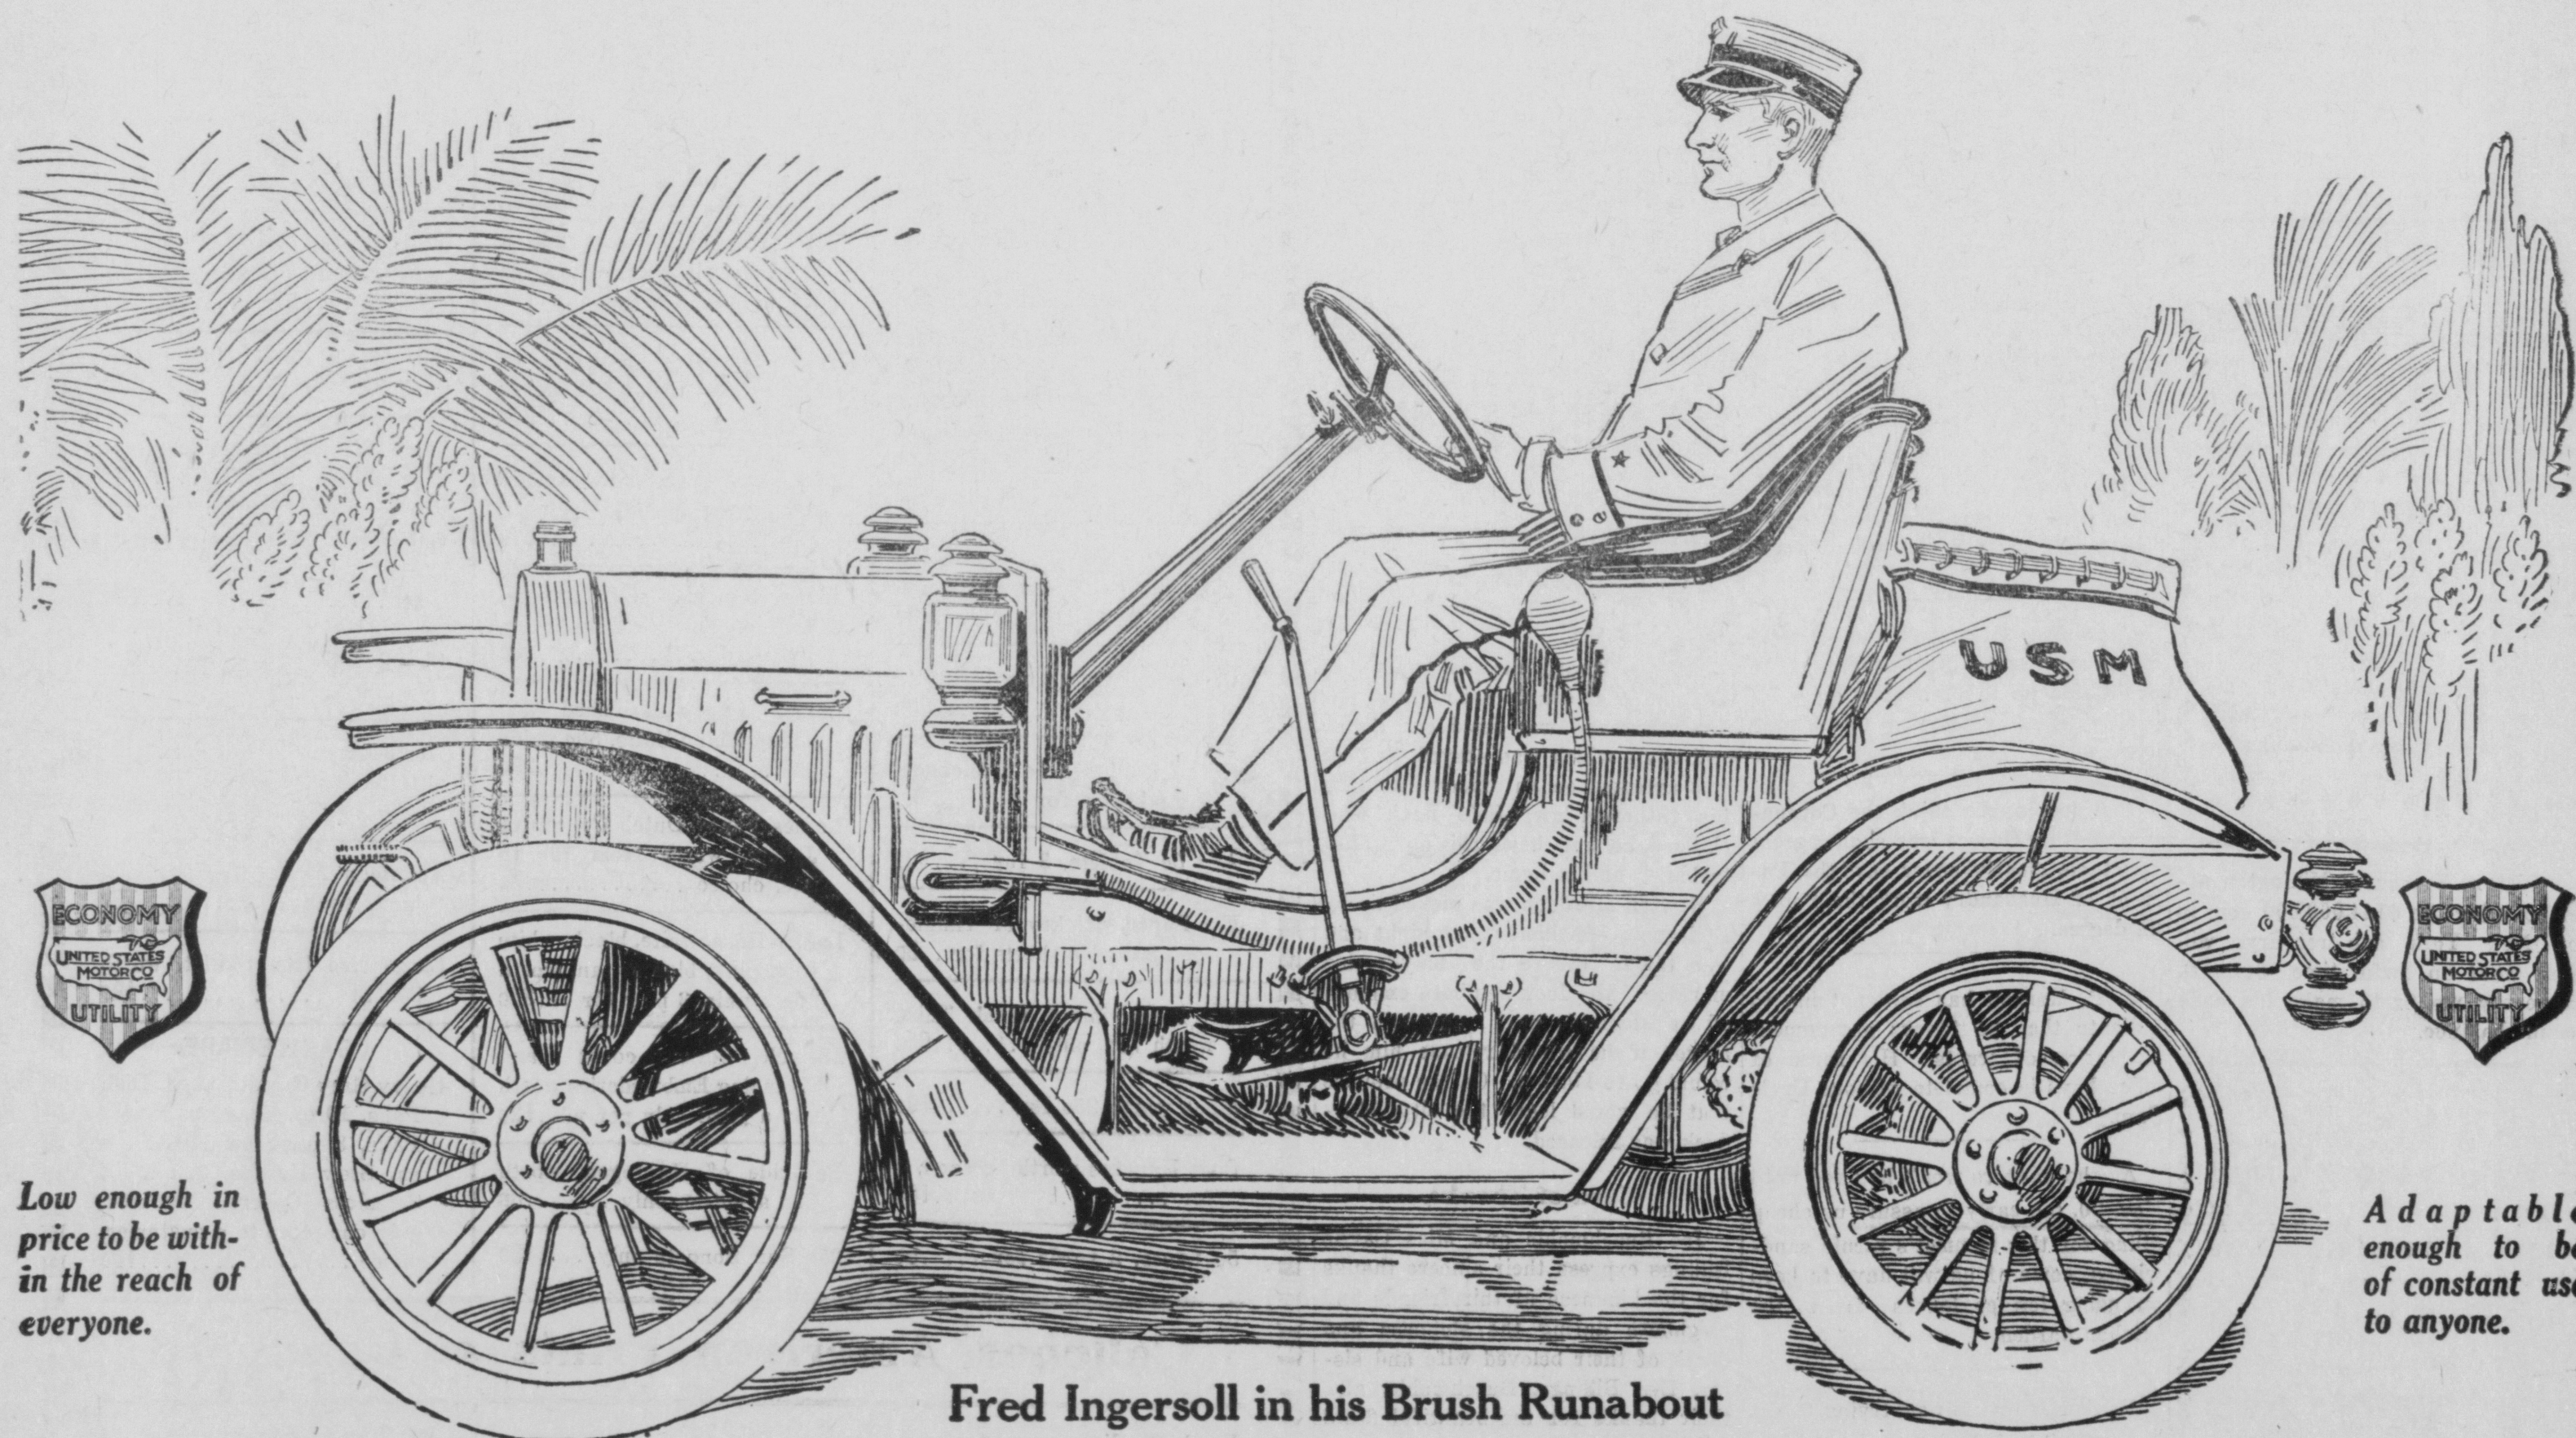

That's possible in your business, if you depend on quick, economical transportation for your success. A salesman can see more people, sell more goods and save time and money. Besides, it means better health and more energy.

Everyone can use the Brush, whether merchant, salesman, collector, solicitor, contractor,

architect, mechanic or professional man—especially the doctor. Recently a doctor advertised in a medical paper asking brother physicians their opinion of the Brush. Fifty-two answered and praised the car. He ordered one, and sent the answers to us. We've printed them in a book which we'll be glad to send you.

We especially want merchants to ask us how the Brush will help them in their business—we have some surprising testimonials from men who are using the car for delivery work, besides hundreds who are using it as a runabout.

But don't get a wrong idea. The Brush isn't wholly a business car. Being simpler than any other car, it's used by more women than any other for pleasure. Everyone in the family can use it—even the youngsters in their teens. That's really why it is called EVERYMAN'S CAR.

Low enough in price to be within the reach of everyone.

Adaptable enough to be of constant use to anyone.

Great Crowd Again Greet Spiegel

Young Man and His Assistants Meet a Continuous Stream of Callers at His Private Office---Many Testimonials Testifying to the Remarkable Cures and Obtained From This Great Discovery---A Carload of Sangvin, His Blood, Liver and Kidney Remedy, Arrived Yesterday.

The renowned young man, who has been promising such wonderful things from the use of his New Discovery, undoubtedly showed his audience yesterday afternoon and also last night that he was not making any idle boast. Persons reading of his phenomenal work undoubtedly were skeptical in regard to the veracity of the report of the extraordinary work of this young man. As the proof of the pudding is the eating of the same, so what the eye sees the heart must believe. Any one attending the lectures and seeing the remarkable demonstration performed can readily see why he has become so popular with the people of Rushville.

Phenomenal Spiegel's exhibit is attracting large crowds. It was particularly noticed last night which stood and listened to Mr. Spiegel who is conducting the advertising campaign in behalf of his father's remedies. It appeared last night he did not have hands enough to supply the wants of the people of Rushville, for he sold enormous amounts of Dr. Jones Beaver Liniment, Sangvin, a remedy for the Blood, Liver and Kidneys, which is guaranteed to cure rheumatism, neuralgia, sprains, bruises, paralysis, deafness and bodily aches and pains, and the Sangvin for Nervousness, Stomach Trouble, Indigestion, Constipation, Bilioussness, the rundown system and all Skin Diseases, Eczema, Salt Rheum, Erysipelas and others arising from impurities in the blood.

Phenomenal Spiegel has been of great service to people here, testimonials are now coming in which certifies his statement when he made his first appearance that he was making no idle boast when he proclaimed he had the greatest discovery of the age.

All day yesterday a continuous crowd poured into his private office,

where Mr. Spiegel and his assistants met the callers. The multitude that thronged the room was made up of representatives from almost every class of the city's population. Although the people came in great numbers, the crowd moved quickly and it was evident that many came on the advice of their friends and neighbors, others came to express their thanks for the benefits which they had received. In the great moving mass the darkest side of life predominated; suffering humanity had a large representation. People with bodies racked with pain, victims of stomach trouble for weeks who have experienced but very little rest day or night, young people who should have been enjoying the fullest measure of health and aged men and women to whose burden of years had been added the affliction of disease, awaited their turn to meet Phenomenal Spiegel. Some said they had lived for months without hopes but had been encouraged by the remarks of others standing in line waiting only to thank Mr. Spiegel for the good work he is doing.

Many such cases have been reported where Mr. Spiegel has done wonders with his remedy and any one afflicted with rheumatism and pain and any constitutional disease arising from irregularities of the blood, stomach, liver and kidneys, should give these remedies a trial for the success he has had here certainly has proved that his remedies are all that he recommends them for. His office hours are from 10 a. m. to 4 p. m. at 220 Perkins street.

Exhibits will be at the same place tonight at 7:30 o'clock, and undoubtedly those present will be entertained as before. Phenomenal Spiegel said last night that several performers will arrive from Indianapolis to join his show for a night's entertainment. 9211

The time has passed when all sound business men as well as reasonable men sneer and cast reflections on the Young Men's Christian Association by their remarks. It has gradually become such a power for all that is good in the world that men in all classes have united in the effort to make it a nation-wide institution and practical business men consider it an honor to work for the benefit of the undenomination organization.

This organization is a public institution working for the common good. It is not an organization of or for any class of people, but one of true democracy both in regard to those who support it and those for whom it works. Some one has well expressed its position by saying it is a "moral insurance company of the most reliable orders." It is such an insurance company which pays dividends to all who live here and every one who benefits should help pay the premiums. The premiums are of no definite amount, but it is left with you to pay what you are able—the dividends will be the same to each contributor without regard to the size of his payment.

Why not one for Rushville?

A hobble skirt is her street attire; But what will she do in case of fire?

TWO MEN BEFORE MAYOR

Charles Sweet Fined and Newton Murdock Released.

Charles Sweet pleaded guilty to the charge of drunk last night in police court and was fined one dollar and costs which was stayed. Sweet was arrested on an affidavit filed by his father-in-law, Jude Levi, who claimed he had been raising a disturbance at his home.

Newton Murdock was picked up by Policeman McAllister last night and was taken before the mayor this morning. Murdock has been employed at Riverside park and told the mayor if he would release him he would go to Marion. On the promise that he would leave the city, Murdock was released.

Card of Thanks.

Joe Buschmohle and Miss Carrie Billings express their sincere thanks for the kindness of their friends and neighbors during the sickness and death of their beloved wife and sister, Eva Billings, Buschmohle, also their thanks for the beautiful floral tributes.

TRIAL POSTPONED.

The trial of Robert Whalon, charged with gaming which was set for this afternoon was postponed until next week on request of the attorney for the defendant.

THE DAILY REPUBLICAN

Published Daily except Sunday by THE REPUBLICAN COMPANY.
Office: Northwest Corner of Second and Perkins Streets, RUSHVILLE, INDIANA.
Entered at the Rushville, Ind., Postoffice as Second-class Matter.

Wednesday, June 28, 1911.

THIS PAPER REPRESENTED FOR FOREIGN ADVERTISING BY THE

AMERICAN PRESS ASSOCIATION

GENERAL OFFICES NEW YORK AND CHICAGO

BRANCHES IN ALL THE PRINCIPAL CITIES

OBITUARIES.

The Republican will have to make a charge of one-third of a cent a word for ALL obituaries on account of the high cost of composition. Count all the words and send the cash with the obituary when mailing or same will not receive attention.

Assistant Treasurer Millington after counting the \$144,000,000 coin in the New York sub-treasury, will learn what an awful time John D. has every month to make his cash account balance.

During the months of July and August I shall not make my usual visits to Rushville. Those wishing to see me or communicate with me in regard to

Optical Work will find me at my office, 927 1/2 Main St., Richmond, Indiana.

Miss C. M. Sweitzer, OPTOMETRIST

Returns from Chicago for the first 17 days of June show 93 brides and 52 divorces, and a lot of the 93 were probably repeaters.

The Queen naturally wept during the coronation, as her carefully prepared dinner must have got very cold during an eight hour ceremony.

Fourteen lumber trust men are presented with indictments, which papers it is now fashionable to frame and hang side of your college degree.

Admiral Togo is spending 17 days looking over our country, but we don't believe it necessary yet to put armor plate in the Hoboken ferry boats.

As Envoy Hammond had to wear knee breeches to the Coronation, he could ride up to the Abbey on a bicycle instead of having to hire a hack.

The people who think the Coronation of King George was such a great spectacle clearly never saw the Patrons of Husbandry work the Pomona degree.

J. P. Morgan has said nothing to indicate that he favors government regulation of trusts. His force of office boys is complete without Uncle Sam.

As the packers won't be tried until Nov. 20, too early to assure us cheap filling for this summer's picnic sandwiches, some of us will have to keep on using lettuce leaves from the kitchen garden.

Banker Morse is now trying to get out of jail a habeas corpus writ, in spite of the service he could do his country by keeping calm and attending strictly to the creation of cane seat chairs.

The L. E. C. club will meet with Mrs. Stephen Kelly in North Jackson street tomorrow afternoon.

* * *

Mrs. Theodore Betker will entertain the Grand club Thursday afternoon at her home in East First street.

* * *

The members of the Utopia club will be entertained at the home of Mrs. Walter E. Smith at 824 North Jackson street tomorrow afternoon.

* * *

Mr. and Mrs. Miller Whitton entertained at dinner Sunday, Mr. and Mrs. Fred Bell and family, Mr. and Mrs. James Alsop and family, Mr. and Mrs. Pearson and family, Mr. and Mrs. Alfred Sharp and family, Mrs. Nancy Whitton and Mr. and Mrs. Grenville Funderberg and son of Coalfire, Alabama.

* * *

Miss Fanny Capp entertained at dinner at the Scanlan House last evening the following guests: Miss Hazle Lytle, Allen Blackledge, Albert Capp, Denning Havens, Lewis Frazee, and the Misses Jean Griffith of Columbus, and Irene Lowenstein of Valparaiso. The dinner was in honor of the visiting girls, who are the guests of Miss Hazle Lytle.

* * *

New Castle Courier: Mr. and Mrs. H. H. Schmidt gave a family dinner Sunday at their home on Columbia avenue in honor of their son, George, who has left to accept a position in Detroit and New York. Those present were Mr. and Mrs. Warner Schmidt, Mr. and Mrs. Rosecoe Schmidt of this city, Mrs. Frank West and Mrs. Fred Beale and daughter, Mary Elizabeth of Rushville.

* * *

The wedding of Miss Minnie Wink of Knightstown and Henry Irving Dodson of Indianapolis at the Wink home in Knightstown last evening is of especial interest here since Miss Wink was here only last week to attend the State convention of the Tau Kappa sorority and became acquainted with many Rushville young people. Miss Wink retired from the office of grand vice-president of the sorority, when the new officers were elected here last Friday. Many Indianapolis guests were in attendance at the wedding. They will be at home in Indianapolis. Mr. Dodson and Miss Wink attended Butler College and were members of the Sigma Chi fraternity and the Kappa Kappa Gamma sorority.

AMUSEMENTS

The Vaudet will show a Biograph and a Solax film tonight. The Biograph, "Ramona" is a strong emotional drama, containing many thrilling scenes. The Solax, "Nearly a Hero" is said to be a great comedy. It deals with a man who desires to become a hero and in doing so meets with many misfortunes. Leon Maxey will sing the illustrated song.

The Portola will have a complete change of program tonight. "The Witch of the Everglades" is a Selig picture. It is reputed to be one of the finest films which was ever shown here. The management desires that the picture be especially recommended to the theater-going crowd. "The Troublesome Secretary" is a Vitagraph. Charles VanCamp will sing a new illustrated song this evening.

The Palace will show the same pictures tonight as the ones which were on the program last evening. "Davy Jones' Wife" is a Vitagraph comedy, one of the best which has been seen here for some time. Davy is forced to lead a "dog" life and he adopts a plan which is in keeping with the "dog's life." He is unsuccessful in the end, however. "Indian Justice" is a Pathe drama which is very realistic. It deals with Indian life and the love of a young squaw for a young warrior. Charles VanCamp sings the illustrated song.

"We Fit Where Others Fail"

The Mystery of a \$40,000 Robbery

is the plot upon which is founded a new serial story by HARRY IRVING GREENE, author of "Yosonde of the Wilderness," etc., about to appear in these columns, entitled

The Lash of Circumstance

From the opening chapter, when the daring theft is disclosed, to the very last your suspicion as to the identity of the guilty one will leap from one character to another until the startling and unexpected denouement.

You will find this mystery as enjoyable a story as you have read in many a day.

The Opening Installment
Will Appear in a
Few Days

Product of Purdue School of Agriculture

Purdue university graduated forty men from the school of agriculture at the close of the school year, June 14, 1911. Of this number there are twenty-five who are going back to the farm, five who are seeking positions as farm managers, and ten who want positions in college or experiment station work. These figures show that 75 per cent. of the men intend to go into practical work where they can apply directly the principles of instruction that they have learned at the university. The other 25 per cent. are go-

AGRICULTURAL NOTES.

The Indiana Wool Growers held an interesting meeting at Purdue May 25. Tubercle bacilli are widely distributed in market butter. Ordinarily the bacilli remain virulent for more than five months.

On the average farm success hinges very largely on keeping up a systematic rotation if a profitable system of agriculture is to be maintained.

Tuberculosis was known as early as 460 B. C. It is a disease of which four types are recognized; the human, bovine, avian, and a type belonging to cold blooded animals.

The Purdue orchard was carefully sprayed in the spring with dilute lime sulphur. A "New Way" power sprayer was used with good satisfaction, and at a more reasonable expense than the old hand outfit.

Many creameries fail through mismanagement and lack of business records. The same is true of dairymen. A systematic arrangement of the per-

formance of each cow will help greatly to make the dairy herd more profitable. A top dressing of manure is one of the best things for keeping meadows and pastures on a profitable basis. If manure is not available in sufficient quantities a commercial fertilizer will add greatly to the value of the grass crop if supplied properly.

The loose smut of wheat is a fungus disease that causes much loss to the farmers of Indiana every year. The Botanical Department is trying different methods of treating the seed wheat to prevent loose smut in the crops. The results of this work are awaited with much interest.

During the past winter an interesting experiment has been run by the Botanical Department by which the method of growing mushrooms has been much improved. The ordinary compost was reinforced by adding certain commercial fertilizers that have proved advantageous in securing a quick growth and heavy yield.

Trotting Sweepstake, 2 in 3, closed.....500
2:04 Pacing Class, 2 in 3.....1,000

Indianapolis.—With all of the events filling satisfactorily and the best horses in the world already at the track the first Grand Circuit meeting ever scheduled for Indianapolis, July 11-14, promises not only to be a big success but the indications are that it will be one of the greatest and best meetings held anywhere in the country this year. Four races are scheduled for each of the four days of the meeting and there is little choice between the days. Big crowds are certain each day according to assurances that have been received from all quarters.

All Indiana apparently is working to make this blue ribbon meeting the biggest sporting event ever held in the State. To insure Indianapolis a permanent Grand Circuit berth it is essential that this initial meeting be a success. For years Indiana had endeavored without success to obtain Grand Circuit days and the State Board of Agriculture had even offered to turn over the State Fair racing dates to the Grand Circuit directors, but without avail. Now, as a matter of State Pride, it is up to all Indiana horsemen and lovers of the horse to show the state and capital city worthy of a blue ribbon meeting.

The hordes that witness the coming Indianapolis races will see the best and most noted reinsmen in the world perform and they will also see the first performances of the year of the trotters and pacers that are to make 1911 turf history. Every driver of prominence in the world will be here with the horses that will go all the way down the big line. It will be from Indianapolis to Lexington this year and hundreds of the same people will see the start in this city and the finish in Lexington, as both cities are easily accessible. Several states will contribute to the Indianapolis crowds and the eyes of the entire horse world will be turned on the performances of Geers, Benyon, McDonald, Murphy, James, Snow, Dickerson, Sanders and the score of other noted drivers who will compete.

Already more than 200 horses are at the track in preparation for the July 11-14 meet and more are coming daily. Frank Walker, of New York, who is an Indianapolis native son and who has achieved fame in the harness horse world, will be the starting judge and A. J. Keating, of New York, will be the presiding judge. Altogether a red letter blue ribbon meeting is sanguinely predicted.

Atrocious Name for Trotter.

Lady Green Goods is the atrocious name of a green trotter by Peter the Great in the stable of Bob Grady that was a mile at Lexington in 2:08½ before June 1. She is expected to be a factor in the slow classes all down the Grand Circuit.

Veteran Indiana Driver Again to Cut Big Figure

W. H. (KNAPSACK) MCCARTHY.

This Terre Haute driver, who has done much to put Indiana in the front rank in the harness horse world, has a formidable string at the Indianapolis track, ready for the Indianapolis Grand Circuit races July 11-14. He has two fast free-for-all trotters in Nancy Royce and Oro and he is always a hard man to beat to the wire.

STABLE THE BEST OF ALL

MACKENZIE HAS GREAT TROTTERS AND PACERS.

Will Make First Start of Season at Indianapolis Grand Circuit Meeting July 11-14.

Indianapolis.—It begins to look as if R. J. Mackenzie, the multi-millionaire railroad man of Winnipeg, Manitoba, intends to try to hog the Grand Circuit patch this year, starting with the opening Indianapolis meeting, July 11-14. On the heels of the announcement of his purchase of Penisa Maid, 2:04½, for \$25,000 and three other colts owned by M. D. Shutt, of Rock Rapids, Ia., in Indianapolis this month, comes the announcement of his purchase of the pacer Harry Direct at Memphis, Tenn. It seems that the Mackenzie driver and trainer, Harvis James, slipped away from Indianapolis for Memphis, immediately after the Friday workout and went to Memphis where the green pacer Harry Direct was worked out a mile in 2:05¼ for his benefit. Announcement of the purchase came a little later. Harry Direct is by Walter Direct and he had been the fastest mile of any pacer or trotter in the country up to that time this year. The acquisition of these horses makes the Mackenzie stable loom up in an extremely formidable manner. As Harry Direct is named for the Detroit Chamber of Commerce stake Mr. Mackenzie now has three entries in that classic. The others are Joe Patchen II, 2:17, and the green pacer, Vernon McKinney, which was a mile last year in 2:04½. Joe Patchen II, is touted as a sure two-minute pacer this year and he looks every inch a champion. Like champion Dan Patch, he is by Joe Patchen. Harry Direct was shipped to Indianapolis immediately and with the other Mackenzie horses will make his first start at the Indianapolis Grand Circuit races July 11-14.

These are only a few of the horses in the Mackenzie barn. Jack Vassar, a bay gelding by Red Medium, is entered in the 2:20 class trot at the coming Indianapolis meeting and he is also a candidate for the M. & M., \$10,000 trotting classic at Detroit. The Merry Widow, 2:03½, is a pacer in the Mackenzie barn that was a big winner on the Grand Circuit last year and she is expected to lower her record this season. Sister Florentine, 2:14½, is a Mackenzie pacer in the 2:15 class pace; March McEwen, 2:08½, is a roan gelding in the 2:09 pace; Mary Mac, 2:12½, is to start in the 2:12 trot; Bert Kelly, 2:34, a bay gelding, is named for the 2:20 class trot, and several other Mackenzie horses will start in the other races.

Mackenzie now has the best looking free-for-all trotter in the country in Penisa Maid and The Merry Widow is one of the best looking sweepstake pacers in sight. The intermediate classes are well filled and altogether it will be well to watch the Mackenzie string.

Both Mr. and Mrs. Mackenzie are enthusiastic over the harness horse and both will see all the Grand Circuit races. They were recently married and their honeymoon down the Grand Circuit will be a happy one and happier if the Mackenzie trotters and pacers come up to expectations.

Dickerson Has Good Record.

Johnny Dickerson is one of the most famous drivers of harness horses the nation has produced. Next to Geers, the records show he has put more horses in the 2:10 list than any other man. He now has a big stable of promising material at the State fair ground for the Indianapolis Grand Circuit meeting July 11-14 and he is expected to finish high in the summaries. Dickerson is a native Hoosier, starting his career in the horse world at Greensburg and going to Terre Haute before he made Indianapolis his headquarters.

A BUSY DAY FOR THE PRESIDENT

Mr. Taft Will Have Little Leisure at Indianapolis.

THE PROGRAM FOR THE FOURTH

Luncheons, Banquets, Receptions, Speeches, Reviewing "Safe and Sane" Parade, Visiting Railroaders' Picnic, Presenting Prizes to School Children Are Among the Things the President Has Consented to Do.

Indianapolis, June 28.—Completing final details of the arrangements, men in charge of the various committees that are planning to give President Taft a warm welcome to Indianapolis July 4 are hard at work.

The private car in which the president will travel will be attached to the Big Four train leaving Boston at 2 p. m. next Sunday. This train is due to arrive at Anderson at 2 p. m. Monday, where the car will be switched to the Michigan division of the Big Four. Marion will be reached at 2:45. After visiting the Marion branch, National military home, the president will go to the residence of Commandant George W. Steele, and in the evening will attend a banquet to be given jointly by the bankers' and editors' associations of the Eleventh congressional district. The president's car will leave Marion at 9:30 p. m. and arrive in Indianapolis at 11:59 p. m. The president will go to the home of former Vice President Fairbanks.

The committee that is to receive the president and look after his entertainment will consist of about 150 men, representing fourteen business, political and civic organizations. Charles W. Fairbanks was named as chairman of the committee.

As the program for the day now stands, Mr. Taft will arrive at midnight July 3, from Marion. The reception committee will meet him at the union station, and he will go to the home of Mr. Fairbanks for the night. Mr. Taft will breakfast at the Fairbanks home, and at 10:30 will arrive at the reviewing stand on the north side of the soldiers' monument, to review the historical parade. At 11:30 he will go to the Marion club, where for thirty minutes a reception will be held. The Columbia club luncheon will be from noon to about 1:30, when Mr. Taft will go to Washington park. At that place he will present to the school children the prizes they won in the morning parade of floats, and he will also start the program of athletic and track events at the park. Later he will go to the state fair ground as the guest of the Brotherhood of Railroad Men in Train Service. He will go to the Fairbanks home about 5:30 to rest until 7, and then will be the guest of the Marion club at a banquet at the Claypool hotel. The president will leave for Washington about 10:45 that night.

IT STARTLED HER

Court Ordered Woman Witness to Stop Chewing Gum.

Indianapolis, June 28.—"Take that gum out of your mouth," said Judge Seyfried in criminal court when Mrs. Ella McGuirk, who lives in South Walcott street, took the stand. Mrs. McGuirk was charged with trespass. She attempted to testify while she exercised her lower jaw on a wad of gum. Mrs. McGuirk quickly removed the gum and for a minute wore a startled look.

Strange Disappearance of Girl.

Wabash, Ind., June 28.—Althea, the fourteen-year-old daughter of Mr. and Mrs. August L. Bion of this city, left her home in Carroll street Monday night to go to the traction station to meet her mother and has been missing since then. Searching parties are looking for the girl, but so far without finding any trace of her. It is feared she has been kidnapped.

Suspicion of Foul Play.

Indianapolis, June 28.—Coroner Durham is making an investigation into the death of Charles Leet, who was killed when a scaffold on which he was working gave way. He fell from the eighth floor to the basement. Testimony was given at the inquest that the rope on Leet's side of the scaffold had been cut.

Strange Freak of Lightning.

Wabash, Ind., June 28.—Mrs. Oren Smith was picked up from her chair and hurled twenty feet when her home was struck by lightning. She was sitting by a window watching the storm when the bolt struck the house. The chair in which she was sitting was not damaged or even moved.

Drowned in Appleman Lake.

Lagrange, Ind., June 28.—While bathing in Appleman lake, ten miles east of here, Lester Greenwalt was drowned. He was valedictorian of the Lagrange high school graduating class of 1910.

Explosion Scares Cracksmen.

Danville, Ind., June 28.—Burglars tried to blow the postoffice safe here but failed. They were scared away by the first explosion, which was not enough to crack the safe.

DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Advice.

Neyer, Neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are common symptoms of kidney trouble, and you should seek a remedy which is recommended for the kidneys.

Doan's Kidney Pills is the remedy to use. It has cured many stubborn cases in this vicinity.

Can Rushville residents demand further proof than the following testimonial?

Mrs. L. W. Smith, R. F. D. No. 19, Arlington, Ind., says: "My child was afflicted with kidney complaint and suffered severely from backache and headaches. The doctors could give no relief and the various remedies that were tried proved just as useless. At last we learned of Doan's Kidney Pills and my husband obtained a box. This preparation soon brought relief and since taking it, the child has been in much better health. I give Doan's Kidney Pills my most hearty endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SANCTIFIED GREENSBURG.

Greensburg News: Dr. L. M. Henry and wife, Henry Thomson and wife and T. F. Meek and wife went to Rushville Sunday and attended the great revival meetings being held by Dr. Orr of North Carolina. There is said to have been more than 250 conversions thus far and should be many more for Rushville has the material to work on.

HIVES AND PRICKLY HEAT RELIEVED FREE!

There are no conditions attached to this offer. If you are suffering with hives, prickly heat, insect bites, or any other skin affliction, we want you to accept with our compliments a free bottle of ZEMO, the clean liquid remedy for eczema, and all diseases of the skin and scalp.

This free bottle is not full size, but it is large enough to show you the wonderful healing and soothing effects of ZEMO. Call today for your sample bottle of ZEMO at the F. E. Wolcott Drug Store.

It is worse than useless to take any medicines internally for muscular or chronic rheumatism. All that some who are conceited enough to is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

Why buy packing house meats when you can have home dressed meats at H. A. Kramer's. We cure all our hams and bacon and boil our hams, no poison in them. 84tf

Smoke FAIR PROMISE 5c Cigars.

There is one medicine that every family should be provided with especially during the summer months; viz, Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? Sold by all dealers.

Smoke FAIR PROMISE 5c Cigars.

WE STUDY

to please borrowers whose capital is limited, and offer them the benefit of our plan of loaning on personal property at small cost.

PROPHET SMITH DREW A CROWD

Head of Mormon Church Witness in Sugar Hearing.

MANY WOMEN WERE PRESENT

These Eyed the Old Boss Mormon Curiously as He Entered the Room and Crowded Closely Around Him as He Told the Story of the Relations of the Mormon Church With the Sugar Trust—Other Mormons Testify.

Washington, June 28.—At the hearing of the Hardwick sugar investigating committee Tuesday Joseph F. Smith, venerable head of the Mormon church, was the principal witness. His presence attracted a larger crowd than had been seen in the committee room since the inquiry began. Many women were present. They eyed the prophet curiously as he entered the committee room, and crowded closely around him as he told the story of the relations of the Mormon church with the sugar trust.

Prophet Joseph is seventy-three years old. He is tall, spare of figure, has keen blue eyes and, like the prophets of old, wears a beard that falls toward the waist line. He stepped briskly into the committee room and when called to the stand responded with a smile.

Six years ago Prophet Smith appeared before the senate committee on privileges and elections. At that time he spoke as a witness in behalf of Reed Smoot, an apostle of the church, whose right to occupy a seat in the senate was questioned. On that occasion the "first president" of the Mormon church told all about that organization and entered into a discussion of his domestic affairs, admitting that he had five wives and a good many children.

Several of the Mormon brethren accompanied the prophet at yesterday's hearing. There were Apostle Smoot, Bishops Charles N. Nibley and Thomas R. Cutler, Representative Joseph Howell, the only Mormon in the house, and R. W. Young, a grandson of Brigham Young.

The "first president" proved a good witness. He expressed surprise when members of the committee gave the impression that the Mormon church is rolling in wealth, declaring that this was a mistaken notion—that they really had been in financial straits on several occasions and had had to borrow. The prophet objected to having H. O. Havemeyer characterized as an "industrial pirate," declaring that on the other hand he had been a benefactor to the Mormons.

Bishop Nibley followed the prophet on the stand. The bishop proved a jovial witness.

BEACHY'S DARING FEAT

Aviator Circles Niagara Falls and Flies Under High Bridge.

Niagara Falls, N. Y., June 28.—Lincoln Beachy made an aeroplane flight last evening over the city, across the lower Niagara, high over the American falls, and then, circling back from Canada, he dipped at frightful speed into the gorge and sailed most beautifully under the giant arch of the upper steel bridge. Then he followed the gorge for a mile or more, and rising out of it he flew over Niagara Falls, Ont., and landed in the outskirts of the Canadian city safe and sound. Thousands witnessed the spectacle.

PLANS DEFERRED

Standard Oil Company Not Ready to Announce Reorganization.

New York, June 28.—John D. Rockefeller turned up yesterday at the office of the Standard Oil company, 26 Broadway. He attended meetings which had to do with the reorganization of the company in compliance with the decision of the supreme court. The plan has not been settled, and according to a Standard Oil man, won't be ready for publication before September. Mr. Rockefeller's visits were the first he has made to 26 Broadway in several years.

A DOUBLE TRAGEDY

Family Feud in Tennessee Results in Two Deaths.

Dyersburg, Tenn., June 28.—W. E. Hudson, planter and merchant, was shot and instantly killed by Drew Hudson, adopted son of his brother. In turn Drew Hudson was killed with his own weapon by Morgan Hudson, a third brother.

The double tragedy occurred about five miles north of this city, and is said to have been the outcome of a feud which has existed between W. E. and T. A. Hudson.

Then Hanged Himself.

Shelbyville, Ind., June 28.—Charles Moore committed suicide by hanging. He and his wife have been separated for five years and the suicide followed an unsuccessful attempt he had made to effect a reconciliation.

Citizens Fail to Respond.

Kewanee, Ill., June 28.—No deposit was made on the opening day of Kewanee's savings bank.

Rushville, Indiana
"The Home for Savings"STORM DAMAGE
IS VERY GREAT

Continued from page 1.

that he was standing on the door most of the time he was looking for it.

That there was no loss of life is probably due to the fact that there were few people astir at four o'clock in the morning. A report comes from Carthage that Ed Adkins, a prominent well driller of Carthage, was driving out of that town when the storm struck there. The story runs that his horse and buggy were swept from the road as if they were paper, but that he managed to grab hold of a telephone pole and thus escaped injury. It is said that the buggy was demolished and the horse hurt.

Yesterday there were no reports of the loss of stock, but today belated stories are heard of considerable loss on that score. A valuable horse on a farm adjoining the Daltymple farm was killed by falling timber. A high-priced brood mare and colt, belonging to Jesse Brooks, was killed in the same manner. Two hogs belonging to Bert Cobee were also killed.

The storm seemed to cut a swath through the northern section of Rush county. The greater part of Henry county escaped and then the storm lowered again and did more damage. A dispatch from Lewisville says that the storm paid its respects to the southern part of Henry county. Several barns were unroofed, a number of fruit trees twisted off and buildings in general were damaged. A number of chicken houses were moved bodily from their foundations and one went clear off the farm on which it was built.

The roof of the Ball & Thompson elevator at Sexton was blown off and the building was otherwise damaged at a loss of \$250. Some outbuildings at Fred Bell's home were demolished.

Seventy-eight trees out of a small strip of woodland, near the Porter saw mill, one-half mile from Occident, were torn up by the roots. All through the Newhouse farm near there trees were down and blockaded the road for three hundred yards.

On the Tony Mester farm near Occident, three hundred yards of rail fence was destroyed and a field of wheat, which was in the shock, was strewn all over the field. Much of his corn was blown down.

Many people will remember the beautiful grove of shade trees in front of the home on the Dr. Dillon farm in that vicinity. The grove was practically demolished and one tree fell in the door of the house, breaking it down. Several outbuildings were badly damaged.

On the Dabrymple farm which adjoins the Dillon farm on the north, a valuable orchard was destroyed and the doors were twisted off the barn. The structure was only recently completed, was practically wrecked.

The doors of another barn in the same neighborhood were torn and twisted off and a new buggy was blown out of the barn and into the road. The buggy happened to get in the way of a falling tree and was demolished. A lot of chickens on the same farm were killed and a number of shade and fruit trees were blown down.

A similar incident happened on another farm in the same neighborhood. A buggy was blown out of the barn

into the yard and lifted bodily by the wind and set down in the orchard adjoining without any damage being done to the vehicle.

The scale on the Alexander farm was blown down and two barns on the farm were wrecked. Several shade trees in the yard at the house were uprooted.

On the Jefferson Leisure farm the roofs of both the house and the barn were torn off and hurled to the ground. The members of the family were all asleep when the roof was wrenched loose. Great damage was done to the shade trees there.

The roof was torn off the house on the Newsome farm in the same neighborhood. Shade and fruit trees on the farm were damaged at a great loss.

The barn on the Leisure farm near there was completely ruined but the stock in the building at the time was not hurt. The orchard was demolished.

J. A. Bitner, who lives in the same neighborhood has estimated his loss at one thousand dollars. His orchard was practically destroyed as was a forest of valuable timber.

R. M. Whitton in the same neighborhood says that his loss will amount to over a thousand dollars. His house was badly damaged and part of it torn away. His fencing is mostly all down and the barn was badly damaged.

The roof was torn off the large elevator at Farmer's Station at a loss of two hundred dollars. The barn on the Charles Leisure farm near there was destroyed, orchard demolished and a large windmill wrecked.

The tool shed and corn crib on the Frank Leisure farm was torn up and the roof blown off the barn. Trees in the yard and the orchard were badly damaged.

On the Henry Leisure farm, the roofs were torn off of two barns and two others were wrecked. The roofs were torn off of two tenant houses. Mr. Leisure had what was conceded to be the finest sugar grove in the country. It was badly torn up and damaged at a loss estimated by the owner to be at least five thousand dollars.

On the Alva Junkens farm near Sexton a barn and tenant house were wrecked.

A corner of the Hannigan church in that vicinity was torn away by the wind and carried some distance.

Archie Muster was all through the storm district yesterday and he declares that not one-tenth of the truth has been told and will probably never be known. He thinks it marvelous, after viewing the debris, that no lives were lost.

A wind mill on one farm was twisted into a figure eight almost to a degree of exactness.

John Matthews of Arlington suffered a heavy loss on account of the damage to his orchard of cherry trees.

At Milroy there was quiet a storm of wind and a tree was blown over on the Christian church. The falling tree knocked the chimney off the church and tore off part of the roof. The damage to the church was about \$300.

The roof was blown off Stewart Whiteman's barn, west of Milroy and upwards of one hundred forest trees around Milroy were blown down. Fruit was blown from the trees and wheat shocks were torn down.

At Clarksburg Adam Meek's barn was unroofed with a loss of about \$100. Trees and telephone posts are down and storm damages can be seen everywhere.

A tree was blown into a window at the residence of Adam R. Meek, near Clarksburg and the panes were smashed out. This window was in the bed room occupied by Herbert Meek, a son of Adam Meek.

MOTORCYCLE SKIDS.

Delbert Kuhn, who resides two miles north of Manilla, narrowly escaped very serious injury Sunday afternoon, when he was thrown from a motorcycle which he was riding, says the Shelbyville Democrat. Mr. Kuhn was on the way to his home and was forcing the machine along the road at a very rapid rate when in some manner it skidded and threw him to the hard roadway. In addition to a broken nose he received many minor bruises as a result of the spill. The machine was not badly damaged and he rode to the office of Dr. Barham of Manilla, who dressed his injuries.

Book of Home Menus

Showing "What to Serve" and "How to Set and Decorate a Table."

A book to be highly prized, containing table settings beautifully illustrated in natural colors. Also twenty-four menus and more than one hundred recipes for cooking in a

"Caloric" Fireless Cookstove

You will be amazed at the seemingly impossible, almost unbelievable, things it does. It actually bakes cake, pie, bread, biscuits, etc., and actually roasts meats, chicken, game, etc., without any fire whatever except that supplied by the radiators (heated a few moments over a flame the same as an ordinary flat iron), as well as steams, stews, boils, etc.

You can cook practically everything for the family table, better and more wholesomely, more nutritiously, richer in flavor and at less cost than is possible any other way. You can do so the year round, summer and winter.
